

Candida Questionnaire and Score Sheet

This questionnaire is designed for adults and the scoring system isn't appropriate for children. It lists factors in your medical history that promote the growth of *Candida albicans* (Section A), and symptoms commonly found in individuals with yeast-connected illness (Sections B and C).

For each "Yes" answer in Section A, check the point score in the box at the end of the section. Then move onto Sections B and C and score as directed.

Filling out and scoring the questionnaire should help you and your doctor evaluate the possible role of candida in contributing to your health problems. Yet, it will not provide an automatic "Yes" or "No" answer.

SECTION A: HISTORY
